

LOST Hand-tame Pet Cockatiel

Have you seen this bird
in or near Provost?

My name is Solstice (Soli).

I'm not a homing bird and
don't know how to go home.

I LOVE PEOPLE

and might land
on you (please
stay calm)
including on
your head.

I am
curious,
quizzical
and enjoy
upbeat
music
and shiny
things.

I have a loud
flock call.

**MY FAVOURITE FOODS • raw snap peas • peppers • salad greens
• millet • birdseed • cockatiel pellets • stealing toast ...**

Fresh water in bird baths could help Soli survive until someone spots him.

This **butter yellow bird** has **orange
cheek patches** and a crest.

May be perched in trees,
on rooftops, fences, be in
a shed or other building,
or seek human help.

Never heard a cockatiel before?
Scan to hear an example.

If spotted, do not chase.
Please call / text Blaine Sherring
with the location

**(780)
753-8558**

Our family misses Soli very much! Please help bring him home.
